

RED

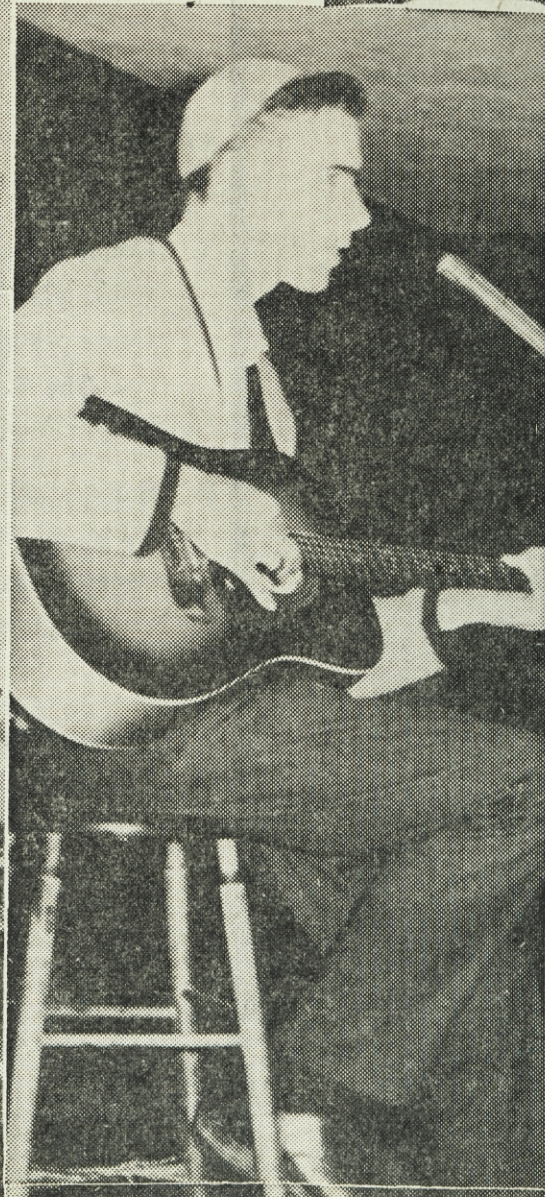

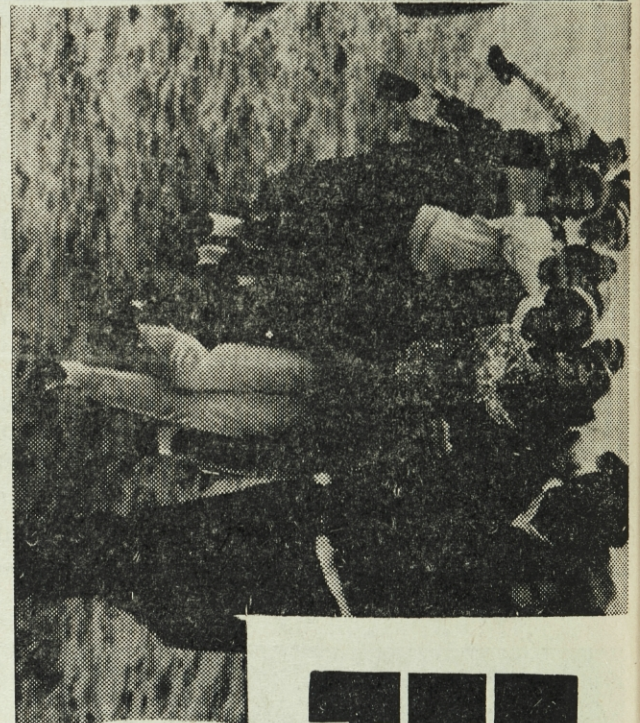

MY SUMMER VACATION:

My summer vacation was very hot. I was in heat all summer and I didn't get a chance to go swimming. I was very busy with my work and I had to work very, very hard to get enough money to come back to SDU. Indeed, I worked too hard at getting work and I didn't have any pull. I tried to pull but it wouldn't work.

But I am back now and I like my teachers very much. They keep me busy with lots of homework and things to do. All I do is think and do and try to figure out by sums. I don't have any time to read and I have lots during my summer vacation because I couldn't pull.

I'm sure glad to be back, and I know most all the pupils in my class and who they sit with. I like all the pupils and wish they had as good a summer as I had—boy, it was hot, I went on a trip, and the policeman caught me, but my father knows him I guess I can pull.

I hope the teacher gives me a good mark for this composition and I learn as much as I did this summer.
