

## ATHLETICS

Our last coverage of sports at St. Dunstan's was rather pessimistic, even though we did end on an optimistic note by saying that the Second Saints basketball team had 50-50 chance of taking the City League title. Our optimism has since been justified.

Pitted against the Y.M.C.A. in the semi-finals, the Saints defeated them in two straight games of the best of three series and advanced against the league leading B.Y.C. team. Caught short handed, the B.Y.C. boys could not stop the determined Red & White squad who clinched the title on Thursday, April 14 with their third straight win and completed a nine game winning streak which saw them through the end of the regular schedule and the playoffs. And so, after a long and practically unobserved season, the most underrated team on the campus is the only one to bring to St. Dunstan's a laurel in the field of sports.

Members of the victorious team include: John Todd, Colin MacMillan, Harry Callaghan, Bert McQuaid, Jim Pelrine, Phil Mullally, Paul Murphy, Al MacDonald, Charlie Roberts and Jim Ryan. The squad was coached by Gerry Tingley and managed by Dick Fleming. Congratulations boys!

### Intramural Hockey

Freshman emerged the campus title holders of the intramural hockey championship having successfully defeated the Engineers and the High School winners. Interest ran high for the playoffs and good crowds were on hand to see the games. The brand of hockey was of a surprisingly good caliber and more than one beautiful play was executed successfully. We sincerely hope that the good sportsmanship and fair play that prevailed will continue in the future and that future series are every bit as enjoyable as the one witnessed by so many this year.

That completes the sports coverage of the academic year 1959-1960. We hope it has been adequate and interesting for one and all and wish our successor the best of success with his task next year.

The grapevine has it that we will be publishing a student newspaper in 1960-1961. This will facilitate the reporting on sporting events and allow for more detailed coverage. However, this involves a great deal of work and we urge the student body to put their shoulders to the wheel and help the staff in whatever way they are able. In so doing, we will have a better publication and one of which one and all can be justly proud. How about it? It is up to you, the student . . . . .
