

of the academic, we find that he has been selected as the 1959 Class Valdickorian and he has served as class president on more than one occasion.

"John R." also has a bit of the salt in him and he will receive his commission in the Reserve Force, after spending three summers ashore and afloat with the Navy.

So ends the details of "John R's." life at S.D.U. But, we that know him know that much more could be said and that his sound wit and sounder advice will make him hard to forget. Good luck in the future, John R., and may it be as successful and rewarding as those years which you so happily spent at the home of the Saints.

ROBERT CHARLES MacDONALD—ARTS

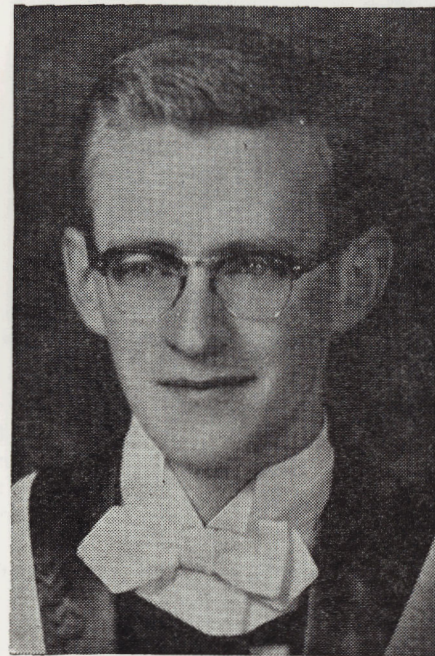

*Words are like leaves, and where they most abound
Much fruit of sense beneath is rarely found"*

If the duty of the student to the university consists in making proper use of the means of self-development offered him by the university, then Robert has accomplished his duty to St. Dunstan's faithfully and fully. Having completed the lower grades in his native Grand River school, Bob came to St. Dunstan's seven years ago to finish off the last three years of his High School course. From St. Dunstan's High School he matriculated to the University Arts course.

Naturally endowed with a quiet and pensive personality, Robert turned his best intellectual efforts to the pursuit of knowledge and, in spite of all the alluring distractions which are inherent to college life, he kept to a very constant course in search of truth. Not the type of student to clutter up his time-table with easy, meaningless courses, he selected his subjects wisely, thereby bringing himself face to face with the great formative truths of Mathematics, Modern Science and Philosophy. Though not neglecting extra-curricular activities, intramural sports, Mission Society, etc.,—Robert preferred to find his recreation in solving tricky mathematical problems for other students or verifying to his own satisfaction the valid moods of the syllogism. Realizing that truth has

its obligations, Robert saw fit to follow the Teachers' Training courses and is one of those fortunate few who gets a First Class Teacher's Licence along with his Arts degree.

His contributions to St. Dunstan's are not to be found in the trophy rooms of the readily tangible fringe activities in which some students excel; rather, his contributions to his alma mater are of a moral and intellectual genre: a reassuring hope to those who come after him that the development of one's talents is still the primary work of the university student and that the quiet pursuit of truth is any graduate's greatest claim to fame.

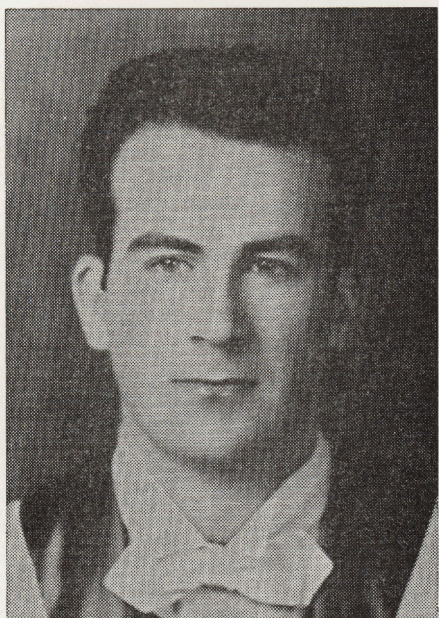

JAMES BRENDON McGINN—COMMERCE

To scorn philosophy is truly to philosophize"

Emyvale has the distinction of being the home and the birthplace of Brendy McGinn, since that fateful day in September of 1936. Almost from the day of his birth Brendy prepared himself for St. Dunstan's but, in the fall of '53 St. Dunstan's found itself quite unprepared for Brendy. With his earnest manner, ready wit and pleasant personality he has won the friendship of both students and faculty.

During his stay at S.D.U. Brendy has taken an energetic part in many activities and has been the driving force in many instances. He has been assistant business manager of the Red and White and, in his senior year, he fulfilled the duties of secretary-treasurer of the Students' Union in a very commendable fashion. In the realm of politics John D. has no more rabid follower. Brendy was very active in last year's Model Parliament as a Conservative member and this year he represented the St. Dunstan's Conservative Club at the regional conference in Halifax.

Brendon goes forth from St. Dunstan's with a Bachelor of Commerce degree and, although his plans for the future are not yet definite, we may be sure that whatever they turn out to be, Brendy will apply to them the enthusiasm and ability with which he has made his mark at S. D. U.

PETER MCGONNELL—ARTS

"A big man with a big heart and boundless energies"

Peter was born in Charlottetown on September 7, 1936. He received his primary education at Queen Square School and entered St. Dunstan's in the fall of 1953. While at St. Dunstan's he has proven himself to be an exemplary student and a diligent worker. In athletics he earned his bronze "D" for being a valued member of the Varsity Basketball team for four years. Peter leaves St. Dunstan's this May with his Bachelor of Arts degree and a First Class Teacher's license.

Peter plans to enter the field of Social Work and we feel sure that all his future endeavours will be crowned with well earned success.

DESMOND JOSEPH McIVOR—SCIENCE

*"He is what he is—what better report
A Man, a Student, a Friend, a Sport."*

It was in the year 1937 near the swelling waves of the Northumberland Strait that Desmond was born to his parents, Mr. and Mrs. William McIvor.

After imbibing all the knowledge that the little school in Borden could give him, Des decided to enter St. Dunstan's, "the fountain of faith and science." And so in the fall of 1953 we find Des in grade XI applying himself diligently to the task of perfecting his education. Completing his High School with evident success, Des embarked on his university career, and this year will be rewarded for his efforts by receiving a Science degree.

Humble and unpretentious in his manner Des has truly won the respect and admiration of a wide circle of friends. This humility however must not be taken for weakness, as those who met him on the gridiron or ice lanes can readily testify. During his college days Des played football and hockey with our second team, and was a willing substitute for members of our varsity football team. Des also participated in all inter-class sports where he was considered a valuable team-mate and a good sport. In the fall of 1955 Des joined the U.N.T.D. and has had the privilege of serving on both Canadian coasts during the summer training. This year he will receive his commission in the Royal Canadian Navy, Reserve.

Des's good natured disposition, gentlemanly qualities and Christian outlook have practically insured him of a successful future. In whatever profession he chooses Des will reflect credit on himself, on his class, on his family, and upon the University that has graduated him.

From your many friends and classmates, Des, Godspeed!

ALFRED EUGENE MORRISON—ARTS

*"To be a true man is to be true to one's self"
And in so doing we achieve greatness."*

February 3, 1938 was the day on which Boston, Mass. added another figure to its population total. Chick arrived and shattered the silence with his first exercise of that wonderful freedom, freedom of speech.

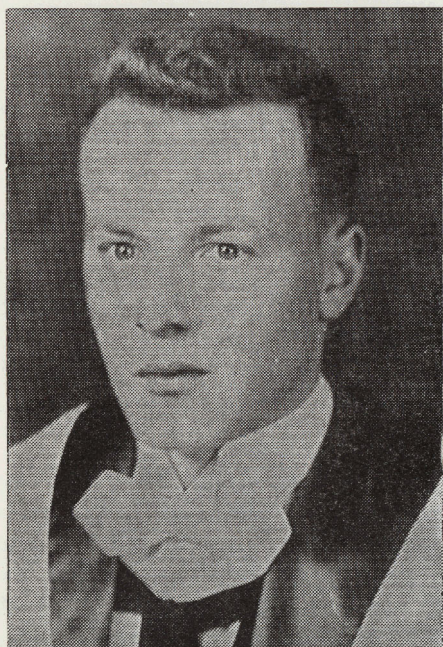

Moving to Canada, and Prince Edward Island, in 1944, Chick, under the care and guidance of his parents, settled in Pleasant Grove, where he still resides when not at University.

Chick received his primary education in Pleasant Grove and entered St. Dunstan's High School in the fall '52 as a member of the grade X class. He has been here ever since and graduates this year with a Bachelor of Arts degree and a teacher's license.

During his six years on the campus at S. D. U., Chick has found time to participate in many extra-curricular activities. Among them are four years on the Varsity basketball team, which he captained in his Senior year; two years as picking-quarter on the Second Team Rugby squad; a valued member of all class teams in intra-mural sports, and a member of the C.O.T.C. in which he receives his commission this year.

In his Senior year Chick served as President of the Students' Union and some glimmer of his dynamic drive and personality is seen in the fact that his classmates have seen fit to elect him Life President of the Class of '59.

We are quite sure that the future holds as much success for him as has the past. Godspeed, Chick from the Saints.

DESMOND MULLALLY—ARTS

Quaerite Prime Regnum Dei

In a farmhouse on Souris River, July 26, 1936, Desmond Eugene Mullally gave his first cries and was added to the Mullally family's register. There are many things we could say about Des, all, of course, good. He sold moonsh . . . , but that's another story.

His academic life saw him attend four schools: Gowan Brae, Rollo Bay West, Souris High School and St. Mary's Convent. He graduated from St. Mary's in June of 1955. Now, four years later, with a broadened outlook on life, he is prepared to leave and take his place in the world. We know that Des will be a credit to his Christian and Catholic upbringing.

During his years at S.D.U. Des has made many friends and few, if any, enemies by his quiet gentlemanly ways. He has gone through his college life, doing his duties as a student, yet always with an active interest in extra-curricular activities. His senior year found him on the W.U.S.C. Committee, and Athletics Editor of *Red and White*.

We know that he will bring his admirable qualities to whatever field he may choose, and we wish him the best for the future.

EDWARD MURPHY—ARTS

"By his leadership, we know the leader"

As a jovial and good natured Irishman Ed has distinguished himself as a leader among men almost since the day he was born in July of 1935, to Mr. and Mrs. Joseph A. Murphy of Cherry Valley, P. E. I.

Ed received his primary education at Cherry Valley and passed grade ten in the spring of 1951. He remained out of school for a year but in the fall of 1951 he entered grade eleven at St. Dunstan's High School. He continued his academic studies until Xmas of 1955 when sickness at home caused him to miss the rest of the year. However, possessed with a keen sense of determination he returned the following year and has continued his studies to the present, leaving with a Bachelor of Arts Degree this year.

Besides distinguishing himself academically, Ed was also very active in extra-curricular activities. He has served on the A.A.A. for two years, as secretary-treasurer the first year and president this year. He has been on the executive of the Students' Union and on the staff of the *Red and White* as well as a keen competitor in intra-mural sports. His smile, hearty laugh and willingness to help others has won him many a friend in his years at S.D.U. Ed is not definite as to what he is going to do next year but you can be sure it includes academic work. Best of luck, Ed.

RICHARD BRIAN NOONAN—ARTS

Regina, Saskatchewan added another member to its population on the morning of February 3, 1938 when Brian was ushered into the world. He shattered the silence for the first time twenty one years ago and has been doing so ever since.

Brian received his primary education at Holy Rosary School in Regina and took his high school grades at Campion, from where he graduated in 1956. This likeable young man entered the halls of St. Dunstan's in the fall of '56 as a Sophomore—the halls have not been the same since.

To simply say that Brian is talented is to pass over the matter lightly indeed. He was very instrumental in the formation of the first St. Dunstan's Canadian Football team, playing for two years, and captaining the squad to the successful season which it had this year. He has been a definite asset to the basketball team for three years and has merited his "D" in both the above mentioned sports. Two years in succession he tied the record for the high jump on Field Day and just missed setting a new one by a fraction. An accomplished pianist and blessed with a fine voice, Brian has been a valued member of the Glee Club and the Bohemians, a singing group composed of students.

If it is necessary to have wit, a ready laugh, an active and probing mind, and a willingness to help in any situation, then Brian is destined to be a great success in his chosen profession. His classmates have seen fit to elect him as the Vice-president of the class of '59 and every one at St. Dunstan's wishes him success in the study of law which he intends to pursue at the University of Saskatchewan next year.

RICHARD LOUIS POWER—ARTS

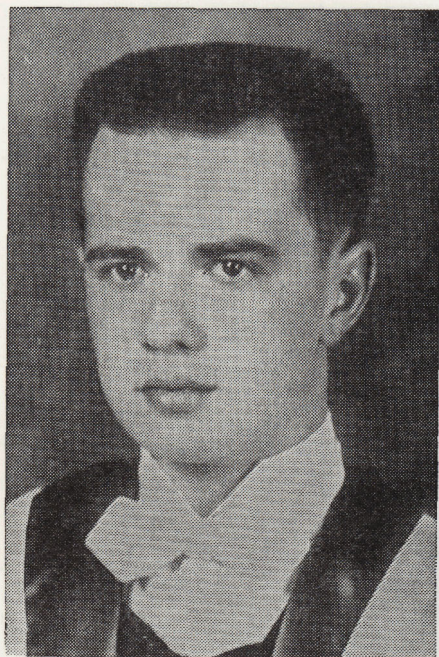

*"But soon or late the man who wins
Is the fellow who thinks he can"*

Rich, was born on April 19, 1937, at Bell Island, Newfoundland, the second son of Mr. and Mrs. John S. Power.

Rich received his primary education at St. Edward's Convent, St. Michael's Boys' School, and St. Kevin's Boys' School. He then crossed the "tickle" to St. John's where he attended St. Bonaventure's College as a Grade X, and Grade XI student. Rich graduated with his Junior Matriculation Certificate in the spring of 1955.

In the autumn of 1955, Rich journeyed across another body of water called the "Gulf" to take up his abode on our campus as a member of the Freshman Class. In the four years since, Rich has coupled his academic ability with the envious faculty of being able to co-ordinate both curricular and extra-curricular activities in such a way as to do justice to both. As Vice-President and President of C.F.C.C.S. over the past years, Rich has demonstrated his capabilities for such positions as well as showing a fondness for hard work.

Rich leaves S.D.U. this year with a Bachelor of Arts degree. He has not yet definitely decided what he will do in the future but we will not be surprised to hear of his being on another campus to further his education. During his time at S.D.U., his overwhelming generosity, coupled with a pleasant disposition has won him many friends, who all join in wishing him the best of luck.

GILBERT ROGER ROULEAU—ARTS

"Dedans mon ennemi je trouve mon amant"

Gilbert was born at Les Hauteurs, Rimouski, on August 1, 1939. His first taste of schooling came to him at the school in Les Hauteurs, where he took his first two primary grades. Although one would never say it now, he was so noisy that his parents packed him off to Pointe-au-Pere boarding school to quieten him down a little.

Sufficiently silenced, he returned to Les Hauteurs to attend grades six and seven. From grade eight, his education was given him at the Seminaire-de-Rimouski.

Leaving Rimouski in the fall of '58, he entered St. Dunstan's as a member of the Junior class. Now, a year later, he is preparing to leave, having gained his Arts degree, a knowledge of English, and a certain female friend, although not necessarily in that order.

Next year Gilbert plans on entering the Toronto Institute of Business Administration. We wish him well in this endeavor, and we know that he will acquit himself in the manner of St. Dunstan's stamped, Christian gentleman, who will make a contribution to the business world, at least in his own province of Quebec.

DANIEL EDWARD SHEA—SCIENCE

"I'm an American citizen and proud of the fact"

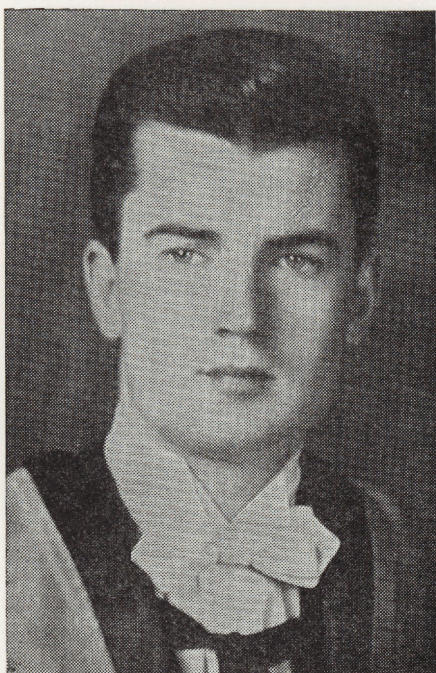

Daniel Shea, son of Catherine and Edward Shea, was born in Rumford, Maine on September 11, 1934. After receiving his primary education in local Rumford schools, he entered Stephen's High School where he pursued the vocational and general courses.

Upon completion of these courses, he entered St. Dunstan's High School in the fall of 1953 as a grade XII student and remained to complete his Freshman and Sophomore years. At the close of his Sophomore year, Dan began his military service with the United States Army. The major portion of this time was spent in Europe with Com-Z Ordinance.

Following his discharge from the army, he returned to St. Dunstan's and joined the class of '59, with which he will graduate this spring with a Bachelor of Science degree.

Dan is a member of several societies and organizations, both on and off the campus, the most important being the Royal Order of Oozlefinches. He has been a member for nearly three years, doing most of his Oozlefinching in New Mexico. His hobbies are closely allied with this field.

Having acquired the knowledge necessary for success at St. Dunstan's which allied with his parental training, we feel sure will guarantee him material and spiritual success in the future.

SCIENCE

ANTHONY THOMAS EDWIN SPENCELEY

Part of the great city of London, England was aroused one morning in the later part of 1936 by the first cries of Anthony Thomas Edwin Spenceley. Tony, alias "Spence" received his early education at Pollards Hill School in Surrey. After his arrival in Canada in 1948 he resumed his studies at Summerside High School from which he graduated in 1955. In the fall of that same year he came to St. Dunstan's as a Freshman.

During his four years at St. Dunstan's, Tony has displayed his able qualities as a journalist, executive and singer. This year he was promoted from Assistant Editor to Editor of the *Red and White*. His efforts at writing have won for him the "Literary 'D'", emblematic of excellence in that field. He also held executive positions on the Students' Union and Dramatics Society. Tony was also a member of the Glee Club and was one of the seven men who composed the popular singing group "The Bohemians".

Academically speaking Tony has laid a solid foundation for his future career which will be in Medicine or an allied field. His application to the Faculty of Medicine at Dalhousie University has been favourably received and it is the earnest hope of all of us that he will follow through and add another doctor to the Alumni of St. Dunstan's; however if such is not to be we are confident that success will be his in whatever he attempts. From your friends Tony, "Best of Luck."

MARY ELAINE TRAINOR—ARTS

*"A studious girl, who's lots of fun,
She never stops till her goal is won"*

Mary Elaine, daughter of the late Mr. and Mrs. Hugh Trainor, was born at Johnstone's River, P. E. I., on November 20, 1937. She attended St. Joseph's Convent, Charlottetown, and Watervale School before enrolling in Grade 6 at Notre Dame Academy. As a member of the graduating class of 1955 at Notre Dame, Mary Elaine had the honour of being class Valedictorian.

She registered at St. Dunstan's for the first time in September, 1955, and since then she has been one of the most active persons on the campus. She has attained a very high scholastic standing during her four years at S.D.U. and has also managed to take part in numerous extra-curricular activities. Her most important outside interest has been debating, and she has been a member of several intercollegiate debating teams. She won her debating "D" in 1957, and this year she was elected the first president of the St. Dunstan's division of the M.G. I.D.L.

Mary Elaine hopes to make her career as a Clinical Psychologist, and in view of this end she plans to enter the Psychology Department of Dalhousie University next fall. The best wishes of her classmates will follow her into her chosen profession.
