In a lifetime of lectures, you'd never learn what the world is really like. You have to see it — the laboratory with three billion teachers. You might learn political economy from a Muscovite (or English from a Cockney bartender). Discover high finance in a Caribbean marketplace (or sales psychology in a Paris souvenir shop). Get a refresher course in ancient history (or just about anything) from a cabbie in Rome. Or be taught something new and unforgettable somewhere on your own continent. When you're ready to take the lab course in learning (and living it up), call Air Canada. We've got a good way to get you to class.
