

Exchanges

Owing to unforeseen and unavoidable circumstances those Colleges with which we have had the pleasure of exchanging magazines, did not receive a copy of the Easter number of "Red and White." As a natural consequence our list of Exchanges is rather small. We regret exceedingly that such a thing should have happened and kindly ask all our former Exchanges to place "Red and White" upon their list once more. We sincerely trust that the occurrence of such a condition of affairs will not be repeated.

PROSPECTOR

We have just received the April number of this magazine and have only had time to read it in parts.

Emmet Riley discusses the Motion Picture problem pointing out its far reaching influences for good or evil. Managers of Motion Picture Houses could profitably spend some time in digesting what is contained in this article. "Dust to Dust" by Walter L. B. Steidle brings to our imagination a vivid picture of what we really are ; a picture which should provide food for considerable deep thought.

We gratefully acknowledge the receipt of the following exchanges : "Prospector," Mount St. Charles College, Helena, Montana ; "King's College Record," Windsor, N. S., "University Monthly" U. N. B. Fredericton, N. B. "The Xaverian" St. Francis Xavier College, Antigonish, N. S.
