

Class of '59 Graduates

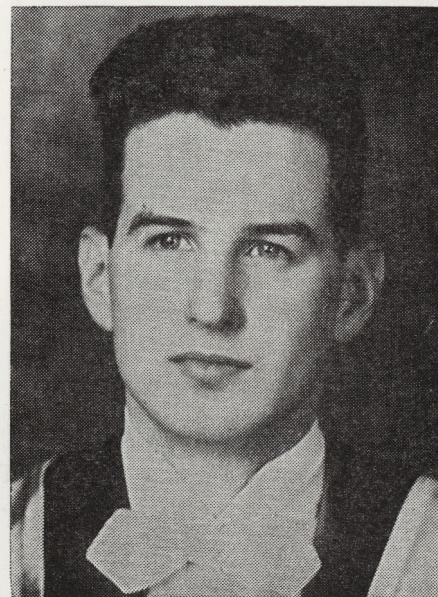

WILFRED LEE BARLOW—COMMERCE

"He is great who determines to be great"

We first met Wilf when he came to St. Dunstan's in the fall of 1955. A son of Mr. and Mrs. Stirling Barlow, Wilf was born on September 24, 1938. He spent his earlier years at St. Eleanor's but his home is now at Traveller's Rest. He received his primary education at St. Eleanor's and completed his High School years at Summerside High.

During his four years at St. Dunstan's he has taken part in many extra-curricular activities. A member of this year's Varsity Football squad he has always been an active participant in such intra-mural sports as hockey, basketball, softball and rugby. He also served as a much valued member of the Amateur Athletic Association for two years.

Wilf has won for himself a place in the hearts of all who met him here at St. Dunstan's as an honest, forthright gentleman, armed with a pleasant personality and a willingness to lend a helping hand whenever it is needed. He has a very fine academic record and he graduates with his Bachelor of Commerce degree this spring. Wilf plans to continue his studies towards Chartered Accountancy next year. From his many friends at St. Dunstan's there comes a wish for a happy and successful future.

**PICTON BILODEAU
SCIENCE & ENGINEERING**

*"Work when necessary and play when possible
at other times, may blessed repose reign"*

On July 19, 1935, Mr. and Mrs. Herve Bilodéau of Hull, Québec, became the proud parents of a bouncing baby boy whom they decided to name Picton.

Within a few short years, it was time for Picton to start school and so he embarked on the road of education by first attending Larocque Primary School. From there, he went to Marie Médiatrice College in Hull where he began his classical course. Finally, in the fall of 1954, he proceeded to St. Dunstan's where he began the studies which now merit him his degree of Bachelor of Science and Diploma in Engineering.

This bright, bilingual young man can claim a great number of friends among the students thanks to his engaging smile, his generosity and his friendly disposition. Pic was always glad to be of assistance to anyone and truly no one can say that he was not a good student and a good friend.

Sports can definitely be considered Pic's hobby. He was one of the few here who knew anything about Canadian football and he was certainly of great assistance in introducing the great game to our campus. He was a member of the last rugby team St. Dunstan's fielded and, despite his relatively small size, he was an offensive and a defensive standout on the football team for the last two years. His sporting interests were not solely confined to Varsity teams however; he also played hockey, basketball and softball, at which sports he was also proficient.

Next year, Pic plans to attend Nova Scotia Tech where he hopes to earn his Degree in Engineering. All his classmates and friends wish him the best of everything in the years to come.

RONALD JOSEPH BOLGER—ARTS

"I grow in learning as I grow in years"

One of the most popular members of the Senior Class, Ronnie was born at Hope River on August 1, 1937, where he received his primary education at Saint Ann's School. He came to Saint Dunstan's High School as a Grade Ten student in the fall of 1952. Since entering College Ronnie has proven himself a very good student and a very versatile athlete. Gifted with a charitable nature, Ronnie has won many friends. Besides being a good student he has also found time for many extra-curricular activities.

Ronnie was Assistant Business manager of **Red and White** in 1958, and, also, assistant manager of the Canteen the same year, and manager in his senior year. He was a member of the W.U.S.C. for three years, being secretary-treasurer in his sophomore year.

Ronnie is hesitant to reveal his future plans, but we can rest assured that in his future work he will display his usual proficiency and we wish him the best of luck.

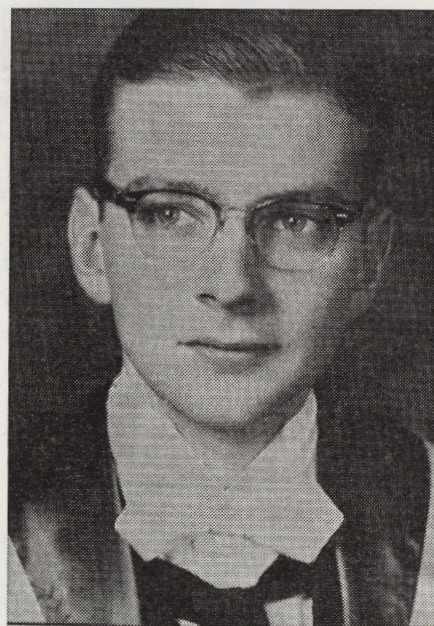

HELEN JACQUELINE CUMMISKEY—ARTS

*"The crown of glory is hers to wear
Who works with fidelity and care"*

Jackie, younger daughter of Mrs. and the late Mr. J. C. Cummiskey, made her debut in Charlottetown on October 28, 1936. Her schooldays were spent at Mount Stewart until she passed Entrance in 1949, winning a Provincial Scholarship. This brilliant student then entered Prince of Wales College from where she graduated in 1952 at the early age of fifteen. Following this, Jackie worked for three years at the National Film Board in Charlottetown and then taught mentally retarded children for three years, one year in Montreal and two in Charlottetown.

Though this year finds Jackie for the first time a full-fledged student at S. D. U. she has quickly won a place for herself as a member of the class of '59. She served on the Social committee of the Sigma Delta Sorority and was also Secretary of the Progressive Conservative Party. Endowed with a cheerful and affable personality, competent and reliable, she has been no small asset to campus life.

Jackie leaves S. D. U. this year with a Bachelor of Arts Degree and plans to take up either Social Work or teaching. But regardless of which path she chooses, the best wishes of the class of '59 follow her.

ROBERT PATRICK DOYLE—COMMERCE

"Nothing ventured . . . nothing gained"

Basically, fundamentally, and chronologically speaking, the following are some of the more important events in the two and a half decade life span of Robert Patrick Bernard Doyle.

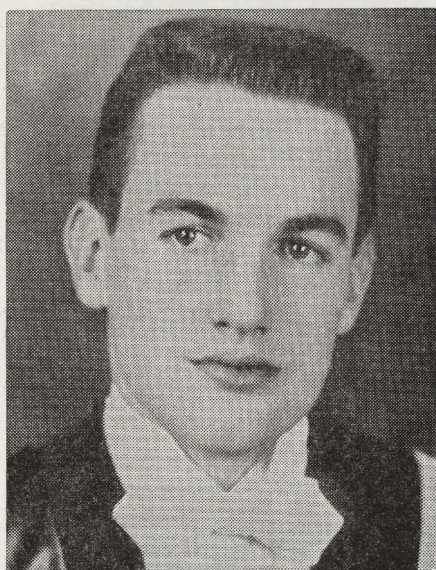

Bob was born March 11, 1935—the second son of the late Mr. & Mrs. Gerald S. Doyle of St. John's Newfoundland.

At the age of six he enrolled at St. Bonaventure's in St. John's where he received his elementary and high school training from the Irish Christian Brothers. During his eleven year sojourn there, he maintained an average scholastic record and at the same time developed a keen interest in oratory, journalism, and dramatics.

In the Autumn of 1952, Bob entered St. Michael's College School in Toronto, where, after two years of residence, he completed his university entrance requirements, and subsequently enrolled in the Faculty of Philosophy at Ottawa University Seminary. Although he recognized the year in Ottawa as a most profitable one, Bob decided to change to Commerce, and thus in September 1955 he arrived at St. Dunstan's.

During his four years here, he has participated in numerous extra-curricular activities as may be witnessed by the following executive positions which he has held: Contributing Editor of the *Red and White*, Chairman of NFCUS, Chairman of Hungarian Scholarship Fund, Vice-President Students' Union, Vice-President Progressive Conservative Student Federation, and President of the Debating Society. In these capacities he has represented St. Dunstan's at several national and regional conferences and seminars. However it is in the realm of debating that he has really left his mark, for besides being President of the Society for a two year period, he has represented SDU as an intercollegiate debator for three years and has won for himself the Debating "D".

Bob leaves St. Dunstan's with his Bachelor of Commerce degree, coupled with the good wishes of his host of friends for every success in the business world.

ROBERT ALFRED FEARON—ARTS

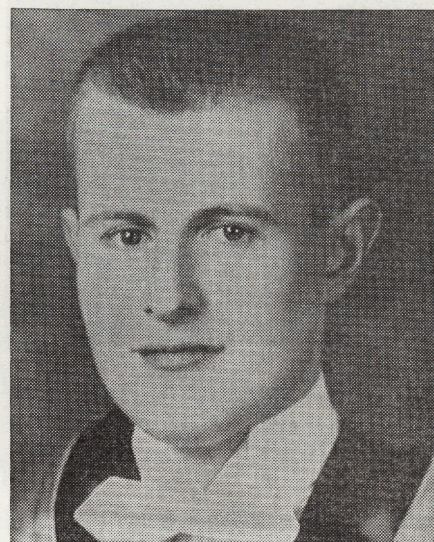

Robert Alfred Fearon first made his appearance to this stormy world on September 17, 1936, the only son and pride and joy of Mr. & Mrs. Paul Fearon of Minto, New Brunswick.

After completing his elementary education at Minto Consolidated School, Bob came to St. Dunstan's where in May 1955 he graduated from St. Dunstan's High School. Returning the following fall, Bob began his university studies and leaves St. Dunstan's this year possessing a Bachelor of Arts degree.

While a student at St. Dunstan's, Bob has always been a leader in campus and extra-curricular activities, giving willingly and unstintingly of talent, time and effort. This year he was a valued member on the St. Dunstan's intercollegiate debating team. Bob has also been active in CFCCS and last year was elected leader of the P.C.S.F. on the campus. Never a stranger to athletic circles Bob was a valuable member of his classes intramural hockey and softball teams. During all of his four university

years Bob has been a valued member of the St. Dunstan's Intercollegiate Basketball Team where his graceful and inspired play from a guard position won him an athletic "D" and the most valuable player award at the University of New Brunswick's 1959 Winter Carnival.

Bob's future plans include High School teaching and higher studies in the field of Education. Bearing in mind the many wonderful attributes which Bob has added to his already fine character, the many friends which he has made during his sojourn at St. Dunstan's, join in wishing him continued success and happiness.

LAWRENCE RAYMOND GALLANT—SCIENCE

June 24, 1937 was a memorable occasion in the lives of Mr. & Mrs. Calice S. Gallant of Summerside, for this day was the birthday of their only son, Lawrence Raymond.

Soon, it became apparent that it was time for young Lawrence to shuffle off to school. He proceeded to "knock off" one grade after another, and finally, in June 1955, he conquered the twelfth grade at Summerside High School. In the fall of that same year, the serene atmosphere of the St. Dunstan's Faculty of Science was forever altered with the appearance of Larry on the scene. Finally, in May of this year, a Bachelor of Science degree will be the reward of his efforts.

Larry is known to all as a friendly, determined young man who is always smiling, enjoys a good joke or a prank, and who, when the occasion demands, can be as serious as anyone. Who but Larry can crack jokes and exchange pleasantries for hours and then go and study for a few more? He is a conscientious worker and his excellent scholastic record will attest to his mental ability.

Participation in campus activities has always been one of Larry's occupations. He joined the UNTD's in his first year here, spent three summers in Naval Training, and is now an Acting Sub-Lieutenant in the RCN(R). He was a member of the A.A.A. for two years, serving one year as hockey manager. The Dramatic Society was also fortunate enough to share his services, particularly during this last year when he was President of that Society.

His interests, however, were not confined exclusively to the campus. He has certain extra-curricular activities which made many wonder where he was going when he proceeded to the city.

Next year, Lawrence intends to go on for further studies; whatever he takes up, we know that he will be a success. And so, it is with one voice that his friends and classmates wish him "Good Luck".

**MARGARET NOREEN HAGEN—ARTS**

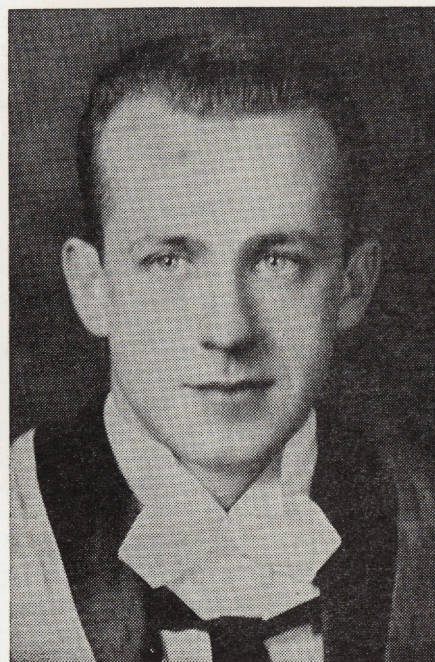

*"High endeavors are an inward light
That makes the path before her always bright"*

Marg, made her first appearance at the home of Mr. and Mrs. Edwin Hagen, Millvale, on December 12, 1937. At the age of eight she moved with her family to South Rustico, where she attended school until she passed Entrance with a Provincial Scholarship in 1951. She graduated from Notre Dame Academy in 1952 and from Prince of Wales Normal School in 1953. On both these occasions she was awarded the Governor-General's Bronze Medal.

At this point in her life Marg decided to enter the teaching profession. After teaching for two years she returned to Prince of Wales College from which she graduated in 1957.

The following September, Marg was welcomed as a member of the Junior Class at St. Dunstan's. In addition to maintaining consistently high academic standards, Marg has been quite active in extra-curricular activities at S.D.U. This year she is president of the Sigma Delta Sorority, vice-president of W.U.S.C., and secretary of the class of '59. She was also a member of the first girls' intercollegiate debating team at S.D.U.

Marg's plans for the future are still indefinite, but her classmates feel that her numerous abilities will enable her to succeed in whatever field of endeavor she chooses.

**LAWRENCE CYRIL HICKEY—SCIENCE**

"Where there's a will there's a way"

Some twenty-two years have come and gone since the youngest son of Mr. and Mrs. Edgar Hickey increased the population of the rural community of Indian River. From the time Larry made his first hesitant step, through the years, until he blocked and tackled on the S.D.U. football field without a sign of hesitancy, he has exhibited no small amount of desire to better himself in every sphere of life. Determination, thoroughness and a true conscience have been his guides and now his diligence has been rewarded for this year he will be graduated from St. Dunstan's with a Bachelor of Science degree.

The earlier part of his education was completed in his home community. After finishing Grade X there he came to St. Dunstan's in the autumn of 1952 and in the spring of 1954 he finished Grade XII. Then there was an absence of one year from his Alma Mater. He made his return in the autumn of 1955 as a member of the freshman class. The four years required to obtain a degree have now slipped by and looking back we can see that Larry has been more than an exemplary student. He has given willingly of his time and efforts to whatever cause required them. In the field of athletics he has been prominent in basketball, hockey and football. For his valuable services on the Varsity Football Squad he was this year awarded an Athletic "D".

His plans for the years ahead are not definite but with his desire to succeed and with the wish of "bonne chance" from his class we are sure that the future holds nothing but success.

**BEVERLEY ELIZABETH HOWARD—SCIENCE***"Silence is the virtue of the wise"*

Beverley was born in Glengarry on November 9, 1937, a daughter of Mr. & Mrs. Bennet Howard. She received her early education in her home school and her senior high school at Our Lady of the Angels Convent, Tignish. In the fall of 1955 she registered at St. Dunstan's in the Freshman year of the Science course. After four very successful years at this institution, she leaves in May with a Bachelor of Science degree.

For the past two years, Beverley has been on the staff of the **Red and White**, last year as a contributing editor and this year as chronicle editor. She has also served as a member of the executive of the Sigma Delta Sorority.

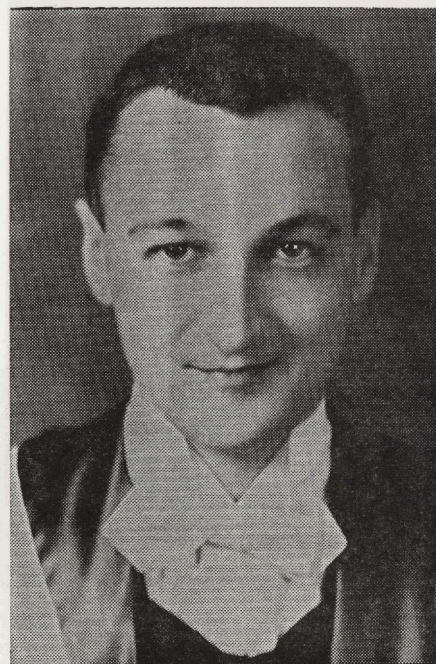

Congratulations, Beverley, and may your future be a bright and successful one

**ROBERT WILLIAM KING—COMMERCE***"Hearts that are great beat never loud"*

On the morning of August 5, 1937, in the small village of Frankville, Antigonish Co., N. S., there occurred an event of great joy in the home of Mr. and Mrs. Robert King, for a son, Robert William, was born to them. Bob after spending the first six years of his life with his parents left home one sunny morning in pursuit of knowledge. Bob's early education was completed in Nova Scotia. In 1954 he came to Prince Edward Island and St. Dunstan's High School completing grade XII in 1955. He then decided to pursue knowledge in the field of Engineering. During his first year of Engineering which he successfully completed Bob's mind turned to the business world and he took up the study of Commerce the following year. This year he has been rewarded for his efforts with a Commerce degree.

During his College years Bob has always been an active participant in extra-curricular activities and was one of the best goal keepers in the intra-mural hockey leagues. During the 1957-58 season Bob played as net-minder for the Varsity hockey team. His musical talents did not by any means go unnoticed during his stay at St. Dunstan's. Bob started off polishing instruments in the band and this year he rose to the position of its president.

Bob leaves St. Dunstan's well equipped to meet whatever the future may bring. His genial personality, which has already won for him a host of friends, and his natural ability will ensure him a prosperous voyage throughout life. From all your friends and class mates Bob, best of luck.

**CHARLES EDMOND LeCLAIR—ARTS***"True friendship's law is by this rule exprest:
Welcome the coming, speed the parting guest."*

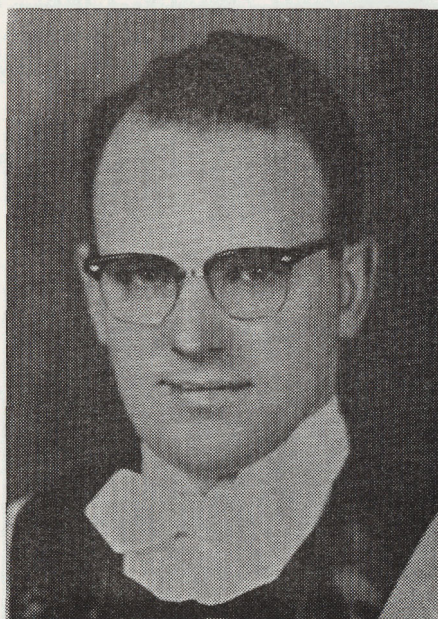

Since this document began on March 15, 1936 in the fishing village of North Rustico, Edmond, has been graduated from Stella Maris High School, attended St. Louis University in Edmundston, N.B. and finally in the fall of 1955, entered St. Dunstan's as a Freshman and one of the few bilinguists in his class.

During his stay at S.D.U., Edmond has shown an interest both in studies and in extra-curricular activities. In the former, he has merited an Art's degree with a major

in English. In the latter, Edmond has taken part in several dramatic productions in which he built up a commendable reputation as an actor. In his Junior year, Edmond held the position of president of the local W.U.S.C. Committee. This year, because of his outstanding leadership qualities which he displayed in the past, Edmond was once again nominated president of W.U.S.C. Twice he represented St. Dunstan's at W.U.S.C. national conferences; at Dalhousie University in 1957, and this year at the University of British Columbia. It was mainly through his efforts that the February Formal has been a tremendous success in the past few years. This year we also find Edmond as Senior Contributing Editor for the *Red and White*.

With his rare combination of wit and wisdom Edmond has proved himself to be a dependable, conscientious and sincere friend to many, and a valued member of the Senior Class. He has manifested an interest in all phases of College life, as he could always be called upon to do his utmost.

Edmond leaves this year with sincere wishes from his classmates and many friends for every success in the continuance of his studies in the field of education. "Bon Voyage" Edmond.

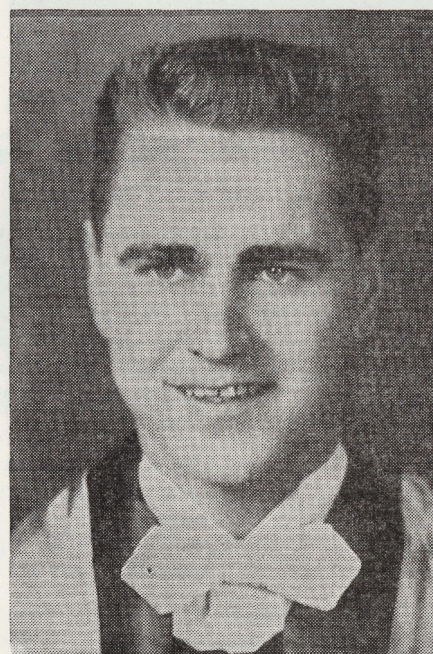

JOSEPH FABER MacDonald—COMMERCE

One still strong man in a blatant land."

A Canadian, without apologies; a gentleman, but not pedantic; a scholar, but not academic; a Christian, but Catholic, are but the seals on the document of life being compiled by Faber, the eldest son of the late Mrs. MacDonald and Henry MacDonald, Parkdale. That document began on January 20, 1932, in Little Pond. His early educational episodes took place there, and later were finished in St. Peter's High School, where he completed grade X. In the fall of 1947 the scene of the narration shifted to St. Dunstan's where Faber entered the ranks of the Saints in Grade XI. Following the completion of his freshman year, we find Faber an employee of the Royal Bank of Canada. Faber worked in the bank for six years in such well known centers as : Charlottetown, Sydney, Stellarton, and Halifax until he reached the position of inspector in the Halifax district.

In the fall of 1956 the scene shifts once again and Faber returns to St. Dunstan's in pursuit of higher education. Colourful chapters followed, drafted along the lines of leadership in extra-curricular activities. These include his tenure as secretary-treasurer of W.U.S.C. and contributing editor to *Red and White* in Junior year; and as business manager of *Red and White* and executive member of the Students' Union in Senior. His popularity and keen sense of responsibility were appreciated by his fellow class members as was shown by the fact that he was elected as a committee member in the senior class executive. Besides filling these important positions, he has accepted the many minor duties which came his way.

A combination of good wit, good sportsmanship, leadership and wisdom has won for him many friends and has facilitated his task of acquiring a good Christian education.

JOHN RONALD MacDonald—SCIENCE

*"High though his wit, yet humble is his mind,
A combination rarely brought to bind"*

"John R." was introduced to the world in the city of Charlottetown in August, 1936. A few years later he was introduced to the educational system of Prince Edward Island when he enrolled in Queen Square School.

In the fall of '53 we find "John R." continuing his academic career as he enters St. Dunstan's for his high school years. He has been here ever since, successfully completing each year in its turn. Just as "John R." owes a debt of gratitude to the institution which supplied him his education, so do the students of St. Dunstan's and the institution itself owe him a vote of thanks for the immense contribution which he has made over the years. In the course of obtaining a degree, "John R." on both the academic and extra-curricular levels, has participated to the best of his ability. In the realm of sports, he has merited his "D" in hockey and football and he captained the Varsity hockey squad in his Senior year. In the realm
