PLOT 65 DECLARES WAR

PEI Has The A-Bomb

Chem Lab — General Nuisance, chief of the Island military affairs, released Friday that the country now has the powerful A-Bomb. Prominent scientists, Dawn MacDoodle and Hoim Connley, spent many hours in research before their mission was realized. They said the lack of Irish Moss, "the heart" of the bomb had stymied their undertaking. Nevertheless a bed of the valuable moss has been found clinging to Main building. It is now thought the Island will go into wholesale manufacture of the bombs.

SDU Makes New Type Of Western Movie

Downeast — College Movie moguls somewhat disgusted over the perennial tale related by western movies decided to do something different. Chief Mogul Shane Kamel said from now on Indians will be treated like white people. Here is a list of some of the changes they are planning to make

(1) Indians will drive baby-blue cadillacs.

(2) Courses will be given in smoke-signalling.

Ancient World Power Lashes At Influence Of Modern Culture

Radio Emu-vail: News Commentator, Bending MaGrin, issued a report today that shocked the modern world and sent thousands of local citizens scurrying from the hills. He (MaGrin) said that the country had taken up arms in an effort to quell the unrest. Unrest which had resulted from influence of modern culture; The propaganda he continued, started from a modern trend in the schools. School-teachers are teaching doctrines opposed to our National Constitution. The doctrines have wrought much resentment between young and older classes of the once powerful nation.

The National Constitution of Plot 65 is based on the following eight principles; (1) Manners are relative; (2) Fingers were made before forks; (3) Overall pants are considered cultured apparel; (4) Irish wakes are a form of devotion; (5) Moonshine is a stimulant; (6) Speech is nothing more than gut-

(3) Fish and chip stands will be installed along the country roads.

(4) Horses doing twenty-five miles on a gallon of oats will be given a salary boast.

(5) Indians will use speech rather than guttural sounds.

(6) Trading posts will not handle firs, but used cars, (cadillacs).

tural sounds; (7) Old time music is a national pastime; (8) All foreigners (those outside the boundaries of Plot 65) are barbarians.

While the country was enlisting the aid of every able man to fight the attack another plan was being drawn up. A Radical Party in the Senate was forming a committee to be sent to S.D.U. (The latter is the world-renowned authority on cultured society). The committee composed of Loois MaKluskey, Jick McCudam and Lehoe MaGrin, left the country under cover of darkness. The conference with University officials was held behind closed doors. No reports from the conference were made public. However, this did prove alarming to other nations as Plot 65 has long been considered an introvert.

Meanwhile Frants, Rushaw and Kanadaw were forming a triple alliance in Uigg as a defensive measure. Plot 65 has been exerting cultural influence on these particular countries for a great number of years. But, as if realizing the chaos resulting from the culture, the three countries hoped to stand firm.

Back in Plot 65 the school teachers were deprived of their "foreign" textbooks. They were informed to elaborate only on the principles of the National Constitution.

Saint Dunstan's Nominated Top University On P. E. I.

Lake Plastic. A conference of world university officials named Saint Dunstan's the top University of P. E. I. The college of the latter nation has an enrollment of over ten thousand residents with an additional five day students. It is closely affiliated with the University of Paree, Yail, College of

Gros March, and the country's top high schools.

Student union president, Liyd Godie, told Island intellectuals that the nomination was deserved. He felt no other local university had the facilities to merit the acclaim

Jam Ridden Opens Dancing School

Dalton Hall — A meeting of Wallflowers Association disclosed yesterday that a new dance school was to be opened. The school is to be supervised by lithe, agile Jam Ridden. Mr. Ridden, a crash hit at University socials on Thursday afternoons, was unanimously elected.

President Irving Bulgure of the Wallflowers said; "It is most appropriate that Jam Ridden be the man. We have found through countless hours of research that the wall will remain standing. Even when we do not hold it up. Now we deem it time to make our move. This new school will be the initial step from the wall."

During this time the aggressive

Van Dues Invade Pool Room

An emigration of local students from College in early April laid bare an opportunity for the shooting Van Dudes of New France to invade the University pool room. The sneak attack led by several Commerce products was held in check only by the cagery pool tactics on one, "Maggio" Killerido. Applying a clever confusion of Italian pool-shooting in opposition to the radical french type of shooting, the Memorialite was able to retain possession of the prized pastime. Order has been restored and the room is once again frequented by the elite pool-sharks

Ridden was to be seen practicing many dance steps. All movements of the popular dancer were exercises of harmony and agility.

MOREICE BUDROW WINS CADEMY WARD

Local University Actor Gains Honor For Performance In "On The Skating Rink"

Mullpeck-Rode — Tall, dark and bilingual Moreice Budrow is the latest darling of University students. The active export from New France was named the new winner of filmdom's highest award. His sparkling performance on the blades has drawn university recognition. He is also widely acclaimed for his role "on shooting a basket."

The decision by the University Dramatic Society, to give Monsieur Budrow the Ward brought no complaints. Dramatic Society spokesman Mocardo Wege commented "Budrow is by far the most colorful of our college exports. He is a natural clown; a rare gift to girls; a firm performer

in the art of Buffoonery. He excels all others in laugh provoking practice."

Meanwhile the actor remained his casual self despite the honor bestowed on him. He continued his role of pleasing prefects and searching for food. Interviewed by the Rustiko Times, Budrow openly confessed his secrets of success. "I am looking funny, my language, how you say it, is mixed up. I am sometimes a good student. So I have it what it takes."

The leading feminine comedienne Grase C-Mun won top honor in her field for the role in Billie Shaiksphere's play "Roameo and Jewellette."

Blockheads Unpopularies Nominated To Office In SDU Election

of hiotous turbulence the governing party of S. D. U. has been removed from office. The blockhead group, a combination of fascist — C. C. F. parties, is truly the voice of the uncommon people. They have as a motto, By the people, by the people, by the people. As can be seen from the motto, the blockheads are interested in the welfare of the college just as long as there are people. The Blockheads Unpopularies are led by little Dick Chisel, Owl Maclelling and Hank Gaudy. All three have studied politics under Urban McGenius at the School of Fish. The school has often been condemned in polite society, but has somehow managed to remain in the public eyes like dustbane.

It is thought the blockhead party will stress a program of reality, v. g. relative class attendance, relative study periods, relative kinships, and of course relative marks.

SDU Goes Modern

Toekeyoh — In an all out effort to keep at least ahead of other universities, the college has made several innovations. Elevators have been added, folding doors, folding students, collapsible courses in chemistry, invisible marks, transparent philosophy, concrete courses in history, pleasant meals, passing marks and restricted averages.

Memorial Hall Notes

The regular monthly meeting of the Memorial Beggars Association was held at the home of Frank Slowey, 115 First Ave. on April 19, 1955 with President Slowey in the bed. After the business of the evening was completed an enjoyable rest period was held. The meeting adjourned after a delicious lunch was served by Edith Baird.

A Card Party was held at the home of Kimble Jay on Monday evening. The big winners after the evening's play had been decided were, Mr. Ed. McCabe, who walked away with the grand prize, which consisted of several used Guardians, one empty gallon jar, three used shoe laces and twelve cigarette butts. The runner-up place was won by Mr. McCabe's neighbour, Mr. Bernard Walsh who won a year's supply of Dr. Black's evergreen pink pills.

Friends of Mr. Thor Broderick will be glad to learn that he is resting comfortably after being severely bruised after being hit by a runaway Nightmare.

Tom Ford is very happy to announce that he will be receiving guests in his home on Third Ave. between the hours of 3:00 and 5:00 p. m. on July 38, 1979.

Farmer Still At Large

Bill Farmer alias Doo Auba alias the Block Tramp, is still on the loose. Farmer escaped from Long Brook jail last Sunday evening and hasn't been caught yet. When he escaped he was wearing Hondo's coat, Slowey's shoes, and a pair of of unidentified overalls. Farmer was not armed when he escaped, but it is feared that he has since procured a weapon. Farmer was spotted yesterday in Ch'town, by the Police, but after leading them in a Merry Chase

Tunes of the Century

Sanka Goodie
(Sung to "Davy Crockelt")

Raised on Molasses in Saint Looie, Standard food for the tribe of the Cree.

Got a hard disposition as you can see,

From a eating a bear when he was only three.

Sanka, Sanka, Goodie
Stone of the Senior Class.

Went to College to learn how to spell

Neglected the rules and slept in as well

Drew the scorn of the prefect so I hear tell

For failing to heed the outside bell
Sanka, Sanka, Goodie

Stone of the Senior Class.

Dashed off to town on a Saturday night,

Crashed the stag line and viewed the sight.

Saw a certain femme and much to his delight

Was a long time torn between wrong and right.

Sanka, Sanka Goodie
Stone of the Senior Class.

Did a stretch in the army for his country,

Is hardly responsible for the mess what be.

Will probably be dead at the age of thirty-three

For living a life of infamy.

Sanka, Sanka Goodie
Stone of the Senior Class.

around Rool Worth's Donut Counter, he escaped into a waiting car which was piloted by "the Crossack." The Police have set up a twenty-four road block, and Farmer is expected to be caught at any time.

PEI Washed Away By Flood

Kiley's Cross — The greatest flood since Noah ended up on Mount Ararat sent the country of P. E. I. skimming across the Seven Seas. The disaster was caused when the turbulent North River overflowed its banks some weeks ago. The Island was moved from its mooring with the exception of Kiley's Cross.

At last report the Island was seen rounding the coast of Newfoundland. The ten million inhabitants were existing on a straight diet of potatoes and fish. It was thought that the food supply would last the nation until it came into contact with Lower Slobolebia. Meanwhile many students were kept busy bailing water. Their exception talent in this respect was responsible for keeping the Island afloat.

New Book On Best Seller List

Summerside — It was revealed today in a survey by the Grant Publishing Company, that one of their recent novels has become a best seller. President Thomas Grant told press at his weekly news conference that a novel by that well known writer Fran Slowey has made the best seller list. Mr. Grant also said that the novel was Mr. Slowey's own Biography and was entitled "Journey In a Bottle." Publisher Grant stated that Mr. Slowey has already begun work on a new book entitled "The Miller's Brother." This new book is not expected to be on the newstands for several months yet.

FRESHMEN WIN WORLD SERIES

Locals Crush Kleaveland Injuns 1-0 In Twilight Encounter At Bolo Grounds

FRIDAY (AFTER SUPPER) Our first year "men" have again captured softball laurels. The lowly-dising-rated locals upset the favored by-rated Injuns in a ding-dong game and won the coveted Noball Award. The game was singularly brilliant for its strategic display. Both coach Arnel Heakey of the Injuns and Ken "Stinkle" MacDonnell threw conventional principles by the wayside. They introduced such shrewd plays that the fans were gasping from the heat of the day.

The "affair" was decided in the last inning. Ob "Dalmation" Formure, because of his disposition, was walked by the Injun hurler. "Dalmation" then stole three bases and was safe at home for juridicial reasons.

The first inning saw the locals with the bases loaded, but no runs came in as the cops arrested the bases. Alelbert Roast then smote three fowls. The Injuns caught the fowls and the game was temporarily halted for a chicken supper in the Teepee.

The Injuns almost scored in the third inning. However, the blanket used for giving signals caught fire and the runner was cremated on third. The Injuns went on the basepath in this frame when Dawn McDoodle called a player a red man. Because of this insinuation to Communism, McDoodle was exiled to Portage.

Our freshmen had a slight rally in the Fourth, but place-hitting expert, Hoim Conlie hit a drive to the catcher and ended the inning. But not before Christian Dyor fashioned a clothesline single. This single was nevertheless censored by Bosttring rules.

The seventh frame saw Coach Heakey instruct his players to padle several liners over the infield.

But the liners did not result in runs due to the lack of water. Heakey then ordered Apache Rositure to bunt. But Lenurd Broadwreck horned in and Apache was tossed out at first. In the same frame the "men" using a squeeze play, (three lemons in a shot of gin) managed to get loaded on the bases, but no runs reeled in.

The eighth inning saw the Irish catcher O'Mit, snag three flies. These flies were off a rare species and were taken to Biology class. O'Mit also pegged Teepee Crag down at second base.

In the ninth innings the Injuns handed out several infield smashes, three doubles and five straight singles, but the runs were taken to court and were charged as being incapable. The Injuns also knit a double play when the threads of the softball became entangled, between first and second.

Just before the game ended a strike was called on Comanche Camel. At last reports the Credit Union picketers were seen escorting Comanche to the bench.

Marion Wins Pole Vault

Miss Marion Monroe, youthful athlete from Belvedere, P. E. I., has won the Inter Iroquois Role Vaulting Competition. Miss Pedhenry attributes her success to her tireless training, and to her Coach Chaos Mellins. Choas said she had trained tirelessly for the meet and said she became so enthusiastic about jumping and vaulting that she would jump all the fences between her house and St. Dunstan's Gym where she was training. Marion made no comment on this final statement.

GOETS PORMER

The bell has rung
The students has rise
I wonder where
Sir Kels is?

Freshmen are getting drowsy
Sophomores are asleep
Juniors are unconscious
And Seniors have woke to weep.

There is a boy from Maine
Not to mention his name
Who travels near and far
In a Pontiac car,
With whom is seen
A certain Maureen;
And for all who care
That's the heart of the affair.

It is rumored that a certain Anne
Has gained many a fan
Amongst our high school boys.
We wonder at this decline
For a lady so fine
From dresses to doll toys.

The presentation was held
In the assembly hall
Attended by most all
Interested in football.
So after months of waiting
Tom could be heard relating
"My sweater- He's got it!
When I thought he had forgot it."

Swift Signs With Dodgers

Tam Swift A. D. has inked a contract with the Draft Dodgers of the Big A. M. Y. League. Swift was spotted by Dodger scout Kenny "Clan Randall" MacDonald as he was giving a demonstration of speed and control at St. Dunstan's Ball Park. MacDonald said he signed Swift because of his fine form and great batting eye. MacDonald stated that Swift signed for an estimated seventeen thousand baseballs.

Local Man Has Mishap

Sleeper — A local man had a very narrow escape from suffocation today. Mr. F. Slowey was rescued after a fourteen hour struggle between the bed sheets. Mr. Slowey told Liar reporter "wide-awake" Shea, that he had become entangled in the mass of bed sheeting about ten-thirty Sunday, evening, and that he was unable to battle his way clear of the surging, thrashing linen. Mr. Slowey said he was not injured in the mishap, but said that as the battle with the blankets grew more intense, that he felt as if he was suffocating. Slowey also said he was very thankful for the help he'd received from the Fire Dept. and the Girl Scouts, but stated that he was so exhausted from his fight that he could sleep for a month.

Stan The Ham

Playboy Stan Nanon has just divorced his eithth wife the former Connie Charmer. Mr. Nanon is a well known figure in Cafe Society, as well as being an expert on the life of "Napoleon." In a News Conference today, just before press time, Stan said he was very happy to be free again, and that he was thinking very seriously of spending the rest of his life with his brothers. Mr. Nanon also said he was very fond of seeing men like himself get the most out of life. When asked why he divorced Miss Charmer, he said that she had called him a little ham. This statement, said Nanon, made him very mad, because he isn't small at all, in fact his exact height is five feet three and one half inches in stocking feet, and tips the scales at a blistering eight-five pounds.

High School Regiment Sent To Hannyoy

Main Barracks — It will be disclosed someday that the country's top army troop has been sent to the Island of Hannyoy. The disturbance in Hannyoy has necessitated the use of the college's track fighting unit.

This is not the first recognition of the valuable group because they have been seen before walking around in uniforms.

It is acknowledged that the unit has the toughest training program of any soldier division in the world. Once a year they are forced to dress in uniforms and drive two miles. On Sundays they must stand at ease for forty-five minutes in a comfortable temperature, also in disagreeable weather they must sit in plush chairs for a whole hour.

High School Boxer Knocks Out 'Flu

Mickle Berge, incrowned chump of Main building, today won his first straight fight. The menacing dennis, fighting out of Infirmary, completely baffled the flu. He used the radiator to raise the temperature of "Flu" and then extinguished him after ten days rest.

GOSSIPVILLE LADIES AUXILIARY MEETS

At seven thirty on Friday, April 3th the Gossipville Ladies Auxiliary convened at the home of Mrs. Wagging Jaw. The President, Mrs. Toface opened the meeting by asking the members to answer the roll call by a name of favorite horse. "Flicka" was chosen by nine out of ten members, with "Trigger" and "Silver" tying for a close second. No other horse can make this statement. Since a great many members were absent from the meeting there were many topics of discussion and the meeting promised to be a good one.

After roll call the President outlined the Agenda as follows:

Following the discussion on Spring Styles, the president brought up the matter of granting membership to unmarried ladies. The reason she maintained for inaugurating such a revolutionary plan was the proper education of young girls.

"Women" she said, "must be taught in youth that men are not to be treated as humans. When a girl marries it is sometime several months before she realizes the advantage of treating her husband and the dog in the same manner."

The resolution received unanimous approval. There being nothing left of everybody else's business to discuss, the ladies were treated to a very delicious lunch by Mr. and Mrs. Waggin Jaw. While their hosts were putting away the dishes, the merits of the lunch were discussed by the ladies. They came to the conclusion that Mrs. Waggin Jaw was a very poor cook and decided not to hold meetings at her house any more.

Dryer Has Night In Town

Jow Dryer, eminent scholar and barber, took time out from his research room to see what the rest of humanity does. Mr. Dryer told

"Bugs" McBride Contracts Pooliomiletis

Confirmary — College physicians have been working feverishly of late to discover a cure for the rare disease of Pooliomiletis. Chief concern of the physicians is student "Bugs" McBride. "McBride," they said, "has no apparent symptoms. We can learn nothing from his carrying of the key to the poolroom; keeping a cue stick in his watch pocket or eating high meals. However, it seems evident, if we piece these clues with his perpetual existence in the poolroom, the answer to our problem seems inevitable." Also on the danger list is a compatriot of McBride, one "Wop" Clellan. The latter was seen lately carrying the eight-ball in his back pocket. (The eight-ball is known as a mild form Pooliomiletis). However, "Wop," on being questioned by Physicians, said he carried the eight-ball in that pocket so he wouldn't get behind it. The Physicians, somewhat thwarted in their research, accused "Wop" of being a wit.

Liar reporter Addlehead Roche that he had two hours off Saturday evening to attend a movie in town. Mr. Dryer said also he could see no reason why a person would ever want to go to town because one wastes so much time from his Studies. At present Mr. Dryer is studying at his regular routine, which consists of fourteen hours straight concentration on the preface of his text, then twelve hours of solid memory work. Mr. Dryer failed to make any comment when he was asked about his boxing skill, for it is rumored that he may make the Ring his Career in place of becoming a hermit.

Auction Sale At Butler's Home

Having sold my residence I offer for sale on May 18 at 1.00 p. m., my personal effects, consisting of:

1 broken pipe, six cigarette papers, 1 Wellington boot, one roommate, 2 shoe-laces, eighteen bottle tops, 1 gold braid, two ash trays, 10 used matches, four coat-hangers, why bother to buy it when so much of it is available in their so-called Human Section, three dirty handkerchiefs, 1 broken glass, one toothbrush, 18 comics, eight used razor blades, 1 wad of gum, one bummers permit, 1 broken watch, three candles, 2 milk cans, four tons timothy hay, 300 bus. mixed grain, 1 spring tooth harrow, one false tooth, 2 broken combs, three socks, 1 pair braces, four feet of string, and other articles too numerous to mention. Everyone welcome.

1) The possibility of Judo for the society.

2) The disbanding of the "Society for the Prevention Of Cruelty to husbands."

3) Spring Styles

4) The granting of membership to unmarried women.

With regard to the first item it was stated by one rather small member, that since husbands were becoming increasingly large, some

Seven Islanders C. M. B. S.

Tomato — The appointment of seven Islanders to the board of the Canadian Brotherhood of Mule Skinners took place last evening at a banquet in the Malpeque Hotel. The seven new executives are, Mr. S. F. Beagen, Mr. R. H. Kelly, Mr. D. C. Farmer, Mr. S. B. Mullin, Mr. L. K. Green, Mr. L. H. Gaudet, and Mr. C. C. McWade. The seven men will take up their new duties immediately if not sooner. When the announcement was made by President B. U. C. K. Davey a great cheer arose from the members present showing that the choice of men for the jobs was unanimously approved by all the asses.

novel means of coercion must be inaugurated. Also a course in Judo would give the ladies a chance to be away from home seven nights a week instead of six. The statement met with the unanimous approval of the younger factions. However many of the older members being a bit more conservative in outlook were content to rely on the old tried and tested, rolling pin and book-end. Said one very sweet old lady, "What was good enough for my mother is good enough for me."

SDU Asked To Sever Relationship With Students

Mosscaff — Due to the large number of students taking courses and getting passing marks, Saint Dunstons has been asked to do away with students. Prof. Red Gaunilon (motorcycle) has suggested that students be relieved of their studies. Gaunilon's theory;

The more you study the less you know. The less you study the more you waste time. The more you waste time the more you are like a student. However a student who wastes time does not pass. Result: Why have students at all?

Shea Modernizes Spokeshave

Shea, well-known writer and statesman, released his first in a series of novels called "Shake, Rattle and Roll, Spokeshave." This first novel was written in Mr. Shea's own practical way (on paper). The first half of the book deals with Ruliet and Jomeo, in which Shea sees Ruliet as a two timing huzzy from New York, and Jomeo as a simple farm boy from Maine. Mr. Shea does an excellent job in his adaptation of the book and the Liar wishes to congratulate Mr. Shea for his great accomplishment. We thoroughly disagree with Mr. Brand Grady, Critic and wild game hunter, who thought Mr. Shea's work was a degradation of the Writings of Spokeshave.

After much heated discussion the resolution was passed and the ladies voted \$1)))00 of their husbands next pay cheque for this purpose. Three burly members were chosen to go to Japan for the purpose of selecting a suitable instructor.

The next item to be discussed was the threat of the Society for Pervention of Cruelty to Husbands. It was decided that society pose no real threat since they could always hide behind the fifth amendment.

The next item however, Spring Styles, brought much heated discussion. The members who were absent contributed a great deal by being the topic of the discussion. The whole meeting looked on with awe and genuine surprise as Mrs. Toface described how she had seen one of the absent members in church wearing a coat which was all of three weeks old. Much astonishment was shown and much whispering and chattering was evident.
